SAMBHAV (SAM) GARG

+1(236) 795-7920 ◇ Kelowna, BC

sambhavgarg2002@gmail.com ◇ https://sambhavgarg.com

Motivated and reliable individual with 2+ years of experience in customer service, retail, and hospitality. Skilled in assisting customers, maintaining inventory, and ensuring smooth operations. A strong team player with excellent communication skills, eager to contribute to customer satisfaction and operational success.

EDUCATION

Bachelor of Arts, University of British Columbia **2020 - 2024**
Major in Computer Science

SKILLS

Technical Skills	JAVA, JavaScript, React, Node, Express, Angular, PHP, SQL, Python, HTML/CSS, Git
Soft Skills	Problem Solving, Communication, Creativity, Adaptability
Software Skills	AWS S3, Kinesis, Cognito; Unity, Docker, Apache

PROJECTS

Kelowna Auto Rentals: Designed and developed a full-stack car rental website for Kelowna Auto Rentals (KAR) using React, AWS (Amplify, S3), and a custom-built booking system. Implemented a search system similar to Turo, integrated Square for payments, and built an admin dashboard for managing listings and blocked dates. Ensured secure license uploads via S3 and enabled booking access without user accounts.

AppSage and MacroSage: Contributed to the development of **AppSage**, a no-code platform for building web applications, and **MacroSage**, a low-code platform for software creation. Enhanced core functionalities, improved user workflows, and developed the "Triggers" feature in MacroSage using Ruby on Rails, enabling users to create and manage custom automation triggers. Focused on backend architecture, scalability, and seamless user interaction across both platforms.

Video Sharing App for Doctors and Recruiters: Collaborated with a team of 5 to develop a secure and scalable video sharing platform enabling doctors, recruiters, and students to record and share videos with privacy controls. Utilized **Angular**, TypeScript, HTML/CSS for the frontend, integrating AWS S3 for video storage, **Kinesis**, and Cognito for authentication with a PHP backend. My key contributions included implementing the video recording and streaming functionalities, demonstrating my ability in **cloud-based solutions**, user-centric design, and collaborative project execution

EXPERIENCE

Lead Developer Sept 2024 - Present
Curious Markings Co *Remote, Canada*

- Contributed to the backend development of MacroSage using Ruby on Rails, optimizing data processing and enhancing system performance for a low-code/no-code platform

Web Developer Dec 2024 - Present
Freelance *Kelowna, BC*

- Designed and developed a full-stack car rental website for Kelowna Auto Rentals (KAR) using React and AWS with a custom built booking system

- Designed and developed a full-stack gym website for The Realm Fitness Kelowna using React and Figma for designs.

Contract Software Engineer Aug 2024 - Sept 2024
Curious Markings Co *Remote, Canada*

- Developed and maintained features for PageSage using JavaScript and related technologies, ensuring seamless user interaction and content management.

Seasonal Employment while attending University in Kelowna, BC   2021 - 2024
Kelowna, BC

- Rental Agent with **Kelowna Boat Rentals**, sales & customer service, maintenance, collection of rental fees and deposits, safety & Training
